

Integrated Management Policy

PB-001 – REV011

In fulfilling its Mission, BELOV establishes commitments to its clients, partners, collaborators, and other stakeholders, promoting quality, health, and occupational and operational safety, integrated with its organizational strategies:

- Promoting health and safety by preventing occupational injuries and illnesses through the elimination of hazards and the reduction of risks inherent in its activities.
- Ensuring environmental protection through pollution prevention, reduction of atmospheric emissions, promotion of sustainable and responsible use of natural resources, continuous improvement of environmental performance, and commitment to managing the impacts of climate change.
- Complying with legal requirements and other applicable requirements for its business, processes, and activities.
- Promoting the continuous improvement of the Integrated Management System, valuing the development of professional, individual, and collective competencies.
- Continuously improve communication channels, promoting the consultation and participation of stakeholders, with a focus on operational excellence and customer satisfaction.
